DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Applicant's arguments filed 12/19/02 and 01/24/03 have been fully considered but they are not persuasive. See the explanations below.

Claims 1-35 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Putzig et al 6,066,714.

The cited prior art is of record in the previous communication. It is Applicants' position that the cited prior art is different because "Nowhere... does Putzig describe a **reaction product...**" (emphasis original). It is the Examiner's position that Applicants' argument is not convincing. Applicants' attention is directed to the columns starting with column 2-5 wherein patentees disclose that the catalyst comprises combining a solvent, an organic titanium compound, a phosphorous compound, a tertiary amine, and a cocatalyst. Examples of titanium compounds disclosed are orthesters, and see also the types of phosphorous compounds disclosed. Regarding the catalyst being a reaction product, Applicants' attention is particularly directed to column 5, lines 50-58 wherein patentees disclose that "The structure of the catalyst system has not been established. Based on the observed exotherm, however, it is believed that **the components have reacted or complexed in some manner to form binary or tertiary composition(s), at least to some extent, that render the catalyst composition especially useful...in the manufacture of polyalkylene terephthalates**

in general" (emphasis added). Thus, it is the Examiner's position that the prior art disclosures have features and characteristics as claimed.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
